EXPERIENCE

Freelance Web Developer 07/2025 – 10/2025
RS Ganpati Crane Services (Paid Client Project), Remote

- Built a responsive, bilingual (English/Hindi) website using JavaScript, HTML5, and CSS3, owning delivery from client requirements to deployment on Netlify
- Generated 15+ customer leads within 3 months of launch by applying SEO (Search Engine Optimization) fundamentals and integrating contact-form workflows
- Tested layouts across Chrome, Firefox, and Safari for consistent mobile and desktop rendering, communicating directly with the client and working independently in a remote setup

PROJECTS

Tradewell – Paper Trading Platform 04/2026 – 08/2026
React, Redux, Node.js, Express.js, MongoDB, REST APIs, Git

- Built reusable React components with Redux state management for responsive dashboards, candlestick charts, and watchlists
- Integrated the Upstox REST API, parsing JSON every 7 seconds to keep 1,500+ stocks live for 100+ concurrent users
- Reduced chart load time by 75% (8s to under 2s) through rendering optimizations and data caching
- Resolved a double-charge concurrency bug and closed 3 security vulnerabilities through systematic debugging and testing
- Managed source code with Git and GitHub and deployed the application on Vercel
- Live Demo: tradewell-marketing.vercel.app | Code: github.com/mayank5463/tradewell-marketing

TripStay – Property Listing Platform 12/2025 – 04/2026
Node.js, Express.js, MongoDB, EJS, Bootstrap, REST APIs, Git

- Developed a full stack listings application with Node.js and Express.js, integrating Mapbox location search and Cloudinary image uploads
- Designed a custom marker-clustering algorithm that keeps map interactions smooth on dense datasets
- Diagnosed and fixed a production bug blocking owners from editing listings, and added input validation and error handling
- Version-controlled the codebase with Git and GitHub and deployed the application on Render
- Live Demo: tripstay-kq15.onrender.com | Code: github.com/mayank5463/Tripstay
